

**PEDIATRIC PROTOCOL**  
**TABLE OF CONTENTS**

Introduction.....	2
Assessment.....	2
Vital Signs by Age.....	3
Abbreviations.....	4
Child Abuse.....	5
Sudden Infant Death Syndrome.....	5
Treatment.....	6
Altered Level of Consciousness.....	7
Treatment.....	8
Anaphylaxis.....	9
Treatment.....	10
Cardiorespiratory Arrest.....	11
BLS Treatment.....	12
Asystole.....	13
Bradycardia.....	14
Ventricular Fibrillation.....	15
Pulseless Electrical Activity.....	15
Diabetic Emergencies.....	17
Treatment.....	18
Neonatal Resuscitation.....	19
Treatment.....	20
Respiratory Distress.....	22
Upper Airway Disease.....	22
Foreign Body Airway Obstruction.....	24
Lower Airway Disease.....	26
Shock.....	28
Treatment.....	29
Status Epilepticus.....	30
Treatment.....	31

## **PEDIATRIC PROTOCOL**

Supraventricular Tachycardia.....	34
Treatment.....	34
Suspected Toxic Ingestion or Exposure.....	35
Treatment.....	36
Major Trauma.....	37
Treatment.....	38
Endotracheal Intubation.....	42
Indications.....	42
Procedure.....	43
Intraosseous Infusion.....	45
Indications.....	45
Procedure.....	46
